

Jimmy Wade

Jimmy Wade is the Business Development Manager at Sunpower Inc. Jimmy started his career at High Precision Devices (HPD) as a mechanical engineer where he was first exposed to designing hardware for cryogenic applications. He went on to work at Ball Aerospace in the cryogenics department as a cryocooler design engineer, and then went to work as the mechanical engineering manager for InPhase Technologies, developing a holographic data storage device. He moved to the Netherlands to work for the Philips Corporation where he served as a product development project manager for the next generation of wake-up light, which enjoyed a successful market launch. He moved back to the US to work for Sunpower where he focuses on marketing, sales, the voice of the customer, customer support, cryogenic applications, future technologies and the space cryocooler market.

Jimmy has a mechanical engineering degree and an MBA from the University of Colorado-Boulder focusing on marketing and entrepreneurship.
