

Parminder Banga

Parminder Banga is the Engineering Manager at Bluefors Cryocooler Technologies, Inc. (formerly Cryomech), located in Syracuse, NY. After graduating with BS in Mechanical Engineering from SUNY at Buffalo in 2007, he joined Cryomech as a Mechanical Engineer. Over the past 15 years, he has worked in various levels of Cryomech operations and has been actively involved in representing Cryomech at APS, ICC, ASC, and CEC conferences.

Prior to his appointment as the Engineering Manager, Parminder was leading subsets of the Engineering and Operations teams with a primary focus on product realization from concept to final design, new product integration into manufacturing, and system qualification. Since 2021, he has been leading the Manufacturing Engineering, Product Development and Specialty Application teams.
