

Richard Dausman

Richard Dausman is currently the Chief Operating Officer at Cryomech, Inc. He joined Bill and Peter Gifford at Cryomech in 1976 and has held a number of positions with the company over the past 37 years. In 1994 he earned his BS in Mechanical Engineering from Syracuse University. Richard has been a key contributor in fostering the steady growth and development of Cryomech into a leading manufacturer of cryogenic systems.

During the course of his career, Richard has been fortunate to work with some of the great minds in cryogenics on all types of applications around the globe. Visiting Cryomech's worldwide base of customers and attending numerous cryogenic conferences over the past 25 years has given him valuable insights into the application and development of cryocoolers as well as a deep appreciation of the cryogenic industry and international community as a whole.

Richard is a board member and currently chairing, along with Chao Wang, the 18th International Cryocooler Conference to be held in Syracuse, NY in June, 2014. He is very appreciative of the opportunity to join the CEC board and is looking forward to contributing to its continued success.
